## PRIVATE LABEL PROGRAM

International Spice has been providing private label spices and spice blends for the past 20 years. We private label hundreds of products for hundreds of large to very small brands. Our goal is to help you create a product that reflects your identity, and provides you with the highest quality product available. We can provide everything from start to finish - blending to packaging to labeling to boxing to shipping.

### We private label for the following:

- **Chefs** – looking to market/sell their unique spice rub or seasoning.
- **Entrepreneurs** – Have you created your own line of BBQ rub, dip mix, seasoning blend and want to market the product? Or create your own spice/blend line using our blends. Names and descriptions can be changed.
- **Grocery stores** – Do you want your own brand displayed on a line of spices, vanilla extracts and seasoning blends?
- **Party favors/Gifts/advertisements** – We can create a unique/personalized label to apply to a product for giveaways or gifts.

### International Spice has multiple capabilities:
